McIntyre Classic Stoneware and Classic Porcelain Tiles

Classic Stoneware and Classic Porcelain are the original McIntyre tiles. Our concept was to use the materials and methods of art pottery for tilemaking. The results are spectacular. McIntyre Stoneware and Porcelain tiles embody the charm and appeal of fine handmade ceramic ware. Glazes are exciting to the eye and hand. Glaze colors on porcelain are vibrant and clear. Glazes on the Stoneware tilebody are earthy and warm colors and textures.

Glazes featured in this series are matte, satin and shiny. Glazes may be opaque, transparent and are created from traditional mineral pigments or metallic elements.

Showroom displays show a typical range of variation that will be a part of a production run. Proportions of each variation in an actual job will vary.

This tile is very hard and vitreous and may be used in wet or frosty applications, inside and outside.

Tile sizes: $1\frac{1}{4} \times 1\frac{1}{4}$, 2x2, 2x3, 2x4, 2x6, 2x8, 3x3, 3x4, 3x6, 3x8, 3x12, 4x4, 4x6, 4x8, 4x12, 6x6, 6x8, 8x8, 6x12, 8x12 and 12x12. Triangles are made in 2", 3", 4", 6" and 8".

Trim and Accessories: SBN is available on all field tiles. Extruded shapes from the McIntyre Classic line are available. Feature strips, carved decoratives and custom colors are all available. Basins, sinks and soapdishes are available in many glazes. Custom sizes and glazes are available. Please check with the factory.
